## PROJECT EXPERIENCE

---

### Rentify – Property Listing Platform

Nov 2024 – March 2025

- Collaborated in a team to build a platform that connects property owners with renters, enhancing accessibility and efficiency.
- Managed user experience and streamlined communication between users through a user-friendly interface.

### Smart Supermarket Assistance Robot

April 2024 - August 2024

- Worked on a functional robot that assists customers by identifying products and guiding them through store layouts.
- Improved customer navigation experience and reduced human assistance workload.

### KwickMeal – Online Food Ordering Platform

Nov 2023 – Feb 2024

- Designed a responsive platform for browsing restaurant menus, placing orders, and managing food delivery.
- Focused on improving customer convenience and restaurant efficiency.

### RuPay – Fee Management System

May 2023 - Aug 2023

- Built a tool to simplify tracking and processing of school/college fees for staff and students.
- Enhanced accuracy, record-keeping, and administrative efficiency.

### SuperMart Inventory Management System

October 2022 – Feb 2023

- Created a desktop application to streamline sales, billing, and inventory processes for retail businesses.
- Automated common business tasks, reducing manual workload.
